Controls Electrician/Panel Builder

Industrial Tech Services, Inc. is a joint venture company under Toyota, Trinity and Shinmei. We are a distributor of machinery and provider of installation services with a concentration on equipment for the automotive industry. We are comprised of 3 production divisions – PE, Shinmei & Trinity.

Our Shinmei Division is a Systems Integrator division which manages projects related to modification of machine-to-machine conveyor systems and design & fabrication of custom-made equipment to OEM and Tier 1 automotive manufacturing plants. ITS is seeking a full-time employee in which the candidate will be responsible for the control panel building, secondary wiring, and commissioning of various material handling control systems.

Responsibilities

- Read electrical blueprints, build, and wire various control panel components.
- Assemble control panels which include PLC, power supply, motor control and safety circuits.
- Maintain organization of ITS Panel Shop
- Debugging equipment after fabrication
- Secondary wiring, Conveyor and Machine Cells

Requirements

- An Associate Degree in a related field, or similar certification or on the job work experience
- Approximately 25% of travel is required (length varies with each project)

At Industrial Tech Services, we believe our success is as much a result of our employees as the products we sell. That is why we seek bright and motivated people for our growing team.

We offer a comprehensive benefits package, including:

- Health, Dental and Life Insurance – 100% premium paid by ITS
- Vacation and Sick time
- 401K with company matching program.
